

## DAY 5 Craft

Plait three ribbons or pieces of string together to make a decoration. As you plait, think about how each strand reminds you about God.

### Step 1

Start with 3 lengths of ribbon of equal length about 1 cm wide. Pin or stitch the three pieces together at one end, as shown in this diagram.

### Step 2

Fold the top right ribbon down, then take the left ribbon and cross it over the top ribbon. Take the right ribbon and cross it over the new top ribbon. If needed, you can use an iron to flatten the ribbon and stop it slipping.

### Step 3

Maintain a consistent tightness. Give the ribbons a gentle tug to tighten the plait as you go. Repeat the process until you reach the length you want. Join the last ribbon crossovers with a small stitch or dot of glue to prevent the plait coming undone.

The resulting length of plaited decorative ribbon can be used just like a normal ribbon to decorate any other projects or use as a Christmas decoration in colours of your choice.
